## IBM Machine Tenders Work Long, Hard Hours

by Bill Grow

Machine tenders in the IBM data processing offices are still looking forward from eleven hour work days to the time when they can come and go with the rush-hour crowds.

But their present condition is an improvement over the sixteen hour days that prevailed during the first two weeks of the changeover from a manual to an IBM system of processing registration.

Presently, routine matters of payroll and government information tasks are overlapping with the should-have-been-finished registration chores.

"We just didn't count on there being so many schedule changes," Mr. B. L. Byers, Data Processing Manager said.

### Rules Important

If all had been done according to rules and regulations, he explained, this situation wouldn't have come about. What to do about it in coming registrations?

"We'll just have to take into account the difficulties a student runs into in planning a schedule. Often changes occur over which he has no control and counselors and deans make it possible for the proper changes to be made.

"These unforeseen changes are where the extra work comes from. Our office will have to adapt and take them into consideration when we plan our work schedules."

One of the places where changes are being made and more will have to be made is in the registration office. A tighter check for wrong information there will have to be made.

### Corrections Complicated

In the past, a correction involved only the pulling of the card and writing in the correction.

"It's far more difficult under the new system. A student may

feel he has come close enough to the information when he writes down Spanish on the card. The machine goes only by call number. If that is incorrect the task is just as rough as if he hadn't written anything," Mr. Byers added.

To be on the safe side a complete class list won't be drawn until the semester is done and all grades are in. "There'll even be some grace time for instructors who couldn't meet the deadline," he said.

An Eight-week class list will be made up but it won't be official.

### Definite Changes

And some definite changes will have to be made in night school registration. "There are so many people who come in and register on the spur of the moment. And we have absolutely no information on them. There's not a thing we can do about including them, even in tentative class lists, until their applications are completely filed and they are correctly listed on our rolls. If these persons began their registration near our deadline they naturally will be handled slower than others.

There was one very bright spot in the whole system. "Not one single second was lost because of damaged class cards; this is a record," he beamed.

### Delays Made Up

Any delays encountered by students now may be made up for by the end of the semester in a speeded up process of letting them almost instantly how they stand academically. "Semester average, Accumulative average, etc.; it will all be there — we hope," he added with crossed fingers.

In spite of all delays, however, the office should be down to a normal work-a-day routine within about ten days, he concluded.

## Think Your Parking Meter Money Profits University? Figures Show the Reverse

By Rusty Harmsen

One of the most difficult jobs on the OU campus belongs to the Dean of Student Personnel Office, whose job it is to keep tabs on 1,447 parking spaces and 5,927 cars trying to park in them.

Dean of Student Personnel, Donald Pflasterer, says "we're doing the best job we can in view of the situation and we expect the co-operation of the students."

Every student, according to Pflasterer, except a few who registered by mail, received a copy of the Motor Vehicle Regulations issued by the student personnel office.

Therefore he said, every student knows what is expected of him when it comes parking regulations.

Pflasterer pointed out that his office has the authority to deny a student classes for failure to pay fines, and serious parking offenses such as mutilating a meter (trying to get a quarter's worth for a nickel) could result in suspension from school.

"A student who is a persistent violator" he went on "is not a boon but a nuisance." "We're not interested in making money, and no one is working on a percentage."

### Fines and Fees

Money taken in from parking fees and fines goes into a separate restricted account known as the revolving parking fund. This money is used for two purposes, operating expenses and capital outlay. Operating expense money is used for the actual operation of the lots, such as the salaries for ticket clerks, maintenance men, police, printing and repair and upkeep.

Capital Outlay expenses take

in the cost of meters, coin processing machines, construction of new facilities, lighting the lots, maintenance equipment and signs.

From the inception of the parking meter program in October of 1955, the total income from parking fees and fines to date is \$197,456.02. Total operating and Capital Outlay expenses have been \$98,429.07 and \$213,849.86 respectively. This leaves a deficit of \$114,822.91 over a six and a half year period.

One hundred thousand dollars of this money was taken from the University's general fund to get the program started.

One year ago, the outstanding deficit was approximately ninety thousand dollars, and it was estimated that the money could be paid off over a ten year period. During the past twelve months however, Operating and Outlay expenses came to \$65,644.65.

An income during this period of \$36,318.49 left an added \$29,326.16 to the deficit. According to Dean of Administration Kirk Naylor, the deficit will now take far longer than the original ten year period to pay off.

### Parking spaces less

While the number of registered vehicles has gone up to nearly six thousand, the parking spaces have dwindled, with the addition of the Applied Arts wing, to under 1500. Some relief will come in a few weeks when the lot adjacent to the new AA wing will reopen, adding sixty-three new parking stalls. This will be offset, however, when work starts on the new wing on the library, which will cover lot "L" to the west and take away fifty four stalls. The prospect of gaining nine stalls looks even dimmer when the student personnel offices' prediction of 10,000 cars registered on campus by February is taken into consideration.

### More Meters

According to Dean Naylor, there will be more metered parking in the future. Current plans call for all hard surfaced lots to have meters by January of 1963 at the latest. The 905 metered spaces now constitute 62.55 per cent of the parking spaces.

The possibility of creating more parking areas on the campus at the present time seem nil.

Most university heads agree that the beauty of the campus must be considered when the question of using the north lawns for parking is raised.

The city Park Commission has balked at relinquishing any park land in Elmwood for parking. An informal request for the use of the ravine to the east of the campus was not too well received by the commission last year.

Land values in the OU area make it unfeasible to purchase property at the present time.

### Solutions?

Two solutions now being informally discussed at OU are a shuttle service and a multi-level parking facility.

The cost of multi-level parking has put it in a back seat. According to a report on parking programs for universities now being studied by the OU park-

ing committee, the cost would run from thirteen to eighteen hundred dollars for each stall. The possibility of parking at Ak-Sar-Ben with a continuous shuttle service to the University is also in the discussion stage. The problem here would be parking on the days Ak-Sar-Ben held matinee activities, such as Rodeos and racing.

### "Law" Problem

Reserving lot "K" on Wednesday for the police enrolled in the Law enforcement course has raised complaints from many students. According to Dean Naylor, the request for special parking was included in the original request to set up the course. Public Safety Director Chris Gugas asked that the parking be readily available because many officers were taking time off from their shifts to attend the classes. "However," said Naylor, "we will run a check to see if we are justified in holding the entire lot." "We will most likely continue to reserve the lot in a quantity necessary to care for the program."

Police have to pay for their parking and fines the same as regular students according to the student personnel office.

"We expect," said Dean Naylor, "full co-operation from students with what the administration realizes is a very real problem."

## Cast Chosen For First Play

The University Theater's first production, "You Can't Take It With You," will be presented Nov. 1, 2, and 3 in the University Auditorium. Curtain time for the opening show is 8 p.m., and the last two performances will begin at 8:30 p.m.

The three-act comedy, co-authored by Moss Hart and George S. Kaufman, was a long-run "smash" on Broadway. It is also the last work by the two playwrights.

Nineteen out of the 52 students who participated in try-outs Sept. 24, 25 and 26 were cast.

Portraying Mrs. Penny Sycamore is Louise Senex; Essie Carmichael, Cheryl Shields; Rheba, Judy Collins; Paul Sycamore, Ron Bojanski; Mr. DePinna, Jim Kemplin; and Ed Carmichael, Russ Mullens.

Completing the cast are Jerry Scheschy as Martin Vanderhof, Richard King as Donald, Diane Hansen as Alice Sycamore, Bob O'Neal as Mr. Henderson, Pat Ryan as Tony Kirby, Art Jepson as Boris Kolenkhov, Carol Abernathy as Gay Wellington, Ken Haas as Mr. Kirby, Betty Bechtel as Mrs. Kirby, Virginia Lawton as Olga, and Bob Crewdson and Gary Wallace as J-Men.

The comedy will be directed by Dr. Edwin Clark, professor of speech and director of the University Theater. Assistant director is John Culjat.

Interp Council is sponsoring a pep rally today at 11:30 a.m. in the Ouamp Room. Classes will not be dismissed.

## AFROTC Department Inspected

From left to right . . . Maj. David M. Jones, Col. Kenneth R. Strauss, President Milo Bail, Col. William T. Jones and Lt. Col. Donald E. Godbey . . . Inspection of the AFROTC was made.

This is inspection week for the AFROTC department, and the inspectors are being inspected.

The annual inspection team from Air University, Maxwell AFB, Ala. is this year being inspected by an Air Force inspection team. This inspection team is from the Office of the Deputy Inspector General, USAF, Norton AFB, Calif.

The AFROTC Inspector General, Colonel Kenneth R. Strauss, is with the Air University inspection team of Lt. Colonel Donald E. Godbey and Major David M. Jones.

While Colonel Godbey and Major Jones inspected the entire AFROTC program here at the University, they were being inspected by the team from Norton AFB to see that their

work was being done properly.

The inspectors from Norton AFB, Calif. are: Colonel William T. Jones, Lt. Colonel John R. Hiltbrand, Lt. Colonel Harold M. Bergeson, Lt. Colonel Robert M. Jenkins, and Major Robert C. Reeve.

The inspectors arrived here Monday afternoon, and were to leave this morning.

## Schilz Visits Ethiopia; Assists in Programs

By Rusty Harmsen

To the average student Ethiopia brings to mind a country somewhere in Africa ruled by a wiry little man supposedly descended from Solomon and Sheba.

To Dr. Gordon Schilz, however, Ethiopia means six years of mapping its terrain, counting its population and assisting the government in land reforms.

### Had Previous trip

Dr. Schilz returned to OU this fall after being granted a one and a half year leave of absence to assist the Ethiopians in their Geographical and census programs. It was by no means a new experience for Dr. Schilz, he had spent four and a half years in Ethiopia on a similar program for Oklahoma University from 1953 to 1957.

Officially a member of the Imperial Ethiopian Mapping and

quite a job according to the geographer, "The houses have no numbers on them, so we used over seven hundred aerial maps of the city. The census takers used the maps to mark off each house on the winding streets so they would know where they were."

Ethiopia is still an agriculture nation, he says and most United States aid is geared to this fact. Actual outright aid in cash for Africa is now going to other African nations, most of which recently gained their independence.

### Russian Air Apparent

Russia is also giving Ethiopia aid, said Schilz, in such conspicuous projects as oil refineries which the common people are more apt to notice and remember.

Health conditions are generally bad, he said. Such diseases as malaria and dysentery are common, and basic commodities such as water and milk are unsafe before sterilizing.

Housing is expensive according to Schilz, \$220 a month for an eight room house. "This doesn't include the price of servants, and guards are also needed to keep out dogs, jackals, thieves and unwanted guests."

"Teachers" he said "should be careful about accepting assignments in Ethiopia. They usually receive around sixty dollars for housing and cannot find much in the way of quarters for this amount."

Dr. Schilz's wife and daughter Kathleen, 13, accompanied him on his trip. Both were accustomed to living in Ethiopia from their previous stay.

The University of Omaha's debate team will open its traveling season October 12 by journeying to Nebraska Wesleyan. Wesleyan will be celebrating the 50th Anniversary of its Collegiate Discussion Conference.

Schilz . . . Ethiopia

Geography Institute, Dr. Schilz was under the United States Point Four Co-operative Technical Aid Project.

Besides training some forty students in the mechanics of mapmaking, he directed the first census of the capital city of Ethiopia, Addis Ababa. It was

## Miss Khafagy Gives Views On Homeland

By Alton Eltiste

"Nasser is not communist. Our religion contradicts communism. We believe that the church and state are equally important, which is against the theory of communism." This is one point that Miss Ekram Khafagy, a student from Cairo, Egypt, particularly wanted expressed.

Ekram Khafagy, a graduate of the University of Cairo with a masters degree in chemistry, is attending the University of Omaha this year before enrolling in the University of Nebraska School of Nursing.

Miss Khafagy said of her change from chemistry to nursing, "It would be easier to get a Ph.D. in chemistry. It would take only two more years of school, but I think I will enjoy the nursing."

### On Scholarship

Ekram is attending OU on an Egyptian Government scholarship to strengthen her English. She has been attending the University of Utah since March of 1961. Because she was not accustomed to the quarter system at Utah she transferred to O.U.

Schools in the U.S. are very different from those in Egypt. In Egypt students wishing to go on to college are given a test. It is the same all over Egypt. On the basis of this exam the students are told which school they will attend.

Education in Egypt is free except for the books. There are no

Khafagy . . . Egypt

general requirements. The courses in the student's field are set up and there is no varying.

Also there is no homework, just the class periods. Then there is one final test for each subject at the end of the semester.

There are about 5,000 students from the United Arab Republic attending schools in the U. S. There are also students from UAR in Russia and in almost all of the countries in Europe.

### Smaller Than Omaha

The area of Cairo is smaller than that of Omaha, but there are about 7 million people living there. In Omaha Miss Khafagy likes "the area around the houses." People in Cairo live in apartments up to 12 stories that are built against each other.

The reason she likes the U.S. is that "Everybody here doesn't interfere with the other person. But you can greet someone on the sidewalk without being careful of class."

Miss Khafagy is living with Mr. and Mrs. Warren Buffett, 5505 Farnam st. Mrs. Buffett is the daughter of Dr. William H. Thompson, former Dean of the College of Liberal Arts at O.U.

The hyena is noted for the strength of its jaw which enables it to crush hard bones. It is said to be a cowardly animal and feeds mainly on carrion.

## TV and Radio Experience Pays Art Bauer Dividends

Art Bauer . . . recipient of a 250-dollar scholarship from the Star Broadcasting Company and KOIL Radio.

A \$250 one-semester radio-television scholarship was awarded this semester to an Omaha University junior, Art Bauer, by the Star Broadcasting Company and KOIL radio.

Bauer has worked in radio since 1959. He has been a staff announcer for KMA in Shenandoah, Ia., KBON and WOW in Omaha. He is currently working as a television cameraman at WOW-TV.

Art also is studying for his Federal Communications Commission First Radio-Telephone license, which is required for working on the technical side of radio and television.

He is working for a Bachelor of Arts degree in radio-TV at O.U.

Aside from his studies, Art is the program director for OU's campus radio station, KWOU. As for his future, he said that he doesn't know yet what he is going to do. However, he does hope to be able to go into graduate work.

Last year the scholarship

went to Larry Schmidt who is now in Kansas City doing graduate work.

### Disc Jockeys Needed

Art Bauer, program director for Omaha University's campus radio station, announced this week that auditions will be held Tuesday for newscasters, disc jockeys, and news editors to staff KWOU radio.

The auditions will be held at 1:45 p.m. in room G-13, the radio-television department located in the basement of the Applied Arts building.

Bauer emphasized that the work is extra-curricular and is open to all students at OU.

You need not be a radio-television major in order to participate, he added.

The radio station is on the air from 11:30 a.m. until 2 p.m., Monday through Friday. Announcers' shifts usually run a half hour to an hour, depending on the day and the individual's class schedule.

## Scribe Baffled, Tries To Write Story, Fails

Gateway reporter Sheri Hronek was assigned to cover the first Friday afternoon dance this semester in the OUamp Room.

Miss Hronek, a sophomore, submitted her notes to the editor with a brief explanation of what happened:

Dear Editor,  
Re: GATEWAY assignment to attend afternoon dance Sept. 28 and to write story about same.

I regret that I cannot write assigned story at this time. For reason, please examine my notes of Friday afternoon.

3:30—Entered OUamp Room to observe afternoon dance and to gather material for story. Expected to see room crowded with people dancing. No dancing. Looked like OUamp Room at any other time—people sitting at tables, smoking, staring into space, drinking (cokes). Only difference was arena in center of room. Double-checked information on location of dance. Maybe someone postponed dance!?? Sat down at table—smoked, drank (coffee—have to be different) and stared into space.

Hronek

3:40—Noise coming from somewhere under the clock. Wait a minute—it's "music." A few people have moved to arena. Most sit and stare. Those in arena begin to move—ah, I guess they're dancing, if that's dancing.

3:45—Am chewing my pencil when a yell is heard from one end of the room. Investigated noise. Boys watching girl in arena. Watched girl—blushed, felt jaw dropping, moved away.

3:50—Went back to table. Most people are still sitting and staring—only now they are staring at people in arena.

3:55—Talked to girl who had just left arena. Asked her how she like to, ah, dance in arena. "It's queer," she said, "with everyone staring at you." She went home.

4:00—Left room. Checked to be sure I had been in OUamp Room and had not walked in on some high school dance. Went home bewildered.

So you see, dear Editor, I tried, but I couldn't find the University's Friday afternoon dance. Sorry I have no story this week, but am now equipped with enough material to write story on the rituals and habits of a primitive society for an anthropology course—in case anyone is interested.

"I told him to lay off that 'greasy kid stuff'"

## Engineering Enrollment Up; Dept. Adds 2 New Faculty

The number of engineer graduates has been dropping nationally in recent years, but this is not the case at Omaha University.

Colonel Anson D. Marston, new chairman of the department, said there was a substantial increase of students at OU this year enrolled in the program. He foresees increasing numbers enrolling in the future. Current figures were not available, he said.

"There is quite a need in the Omaha area alone for engineers. A large number of engineering firms are located here plus a large number that have their home office here.

"This creates a good demand for civil engineers. Also, there is a growing amount of industry in Omaha which calls for increasing numbers of industrial engineers," he said.

"As a result, the job situation is bright for graduates."

### Goal: New Degree

Currently, the highest engineering degree one may obtain at OU is a Bachelor of Science degree in industrial and civil engineering. One of the goals of the department is to make a Master's degree available in both fields in the near future, he said.

An addition to the engineering program in 1960 was a civil engineering degree. This includes mostly building construction and design.

With the addition of the new southwest wing to the Applied Arts building, the engineering department will gain a new lab, a room to be used for motion and time study work plus additional classroom space.

The lab will house a new machine to test tensile strength of steel, concrete and other materials. It will contain electrical test equipment to demonstrate thermodynamics.

### New Instructors

Two new faculty members have been added to the department this year.

William Harriman, a graduate of OU, obtained his Master's here last year. He is teaching engineering drawing and advanced woodworking.

The other new instructor, Prof. Phillip Ostwald, is a grad-

uate of Nebraska University and received his Masters from Ohio State.

Col. Marston assumed the chairman duties from Prof. Sylvester V. Williams, former head of the department who retired in August. Prof Williams is now teaching at the University on a part-time basis.

Col. Marston has been associated with OU for the past two years. Shortly after beginning his association with the University, he was "loaned" to the city for nine months to serve as Public Works Director.

### Iowa State Grad

He took his undergraduate work at Iowa State and his graduate work at Wisconsin in 1926. He then returned to Iowa State to obtain a degree in electrical engineering in 1931. Col. Marston entered the Army shortly afterward and retired in 1960.

Serving his last two years of active duty in Omaha, Col. Marston said he preferred to remain here.

"Omaha has many cultural advantages," he said. "I like the mid-west; it offers many opportunities not available in other sections of the country."

Among the many societies he belongs to are the National Society of Professional Engineers, Society of American Military Engineers, Engineer Club of Omaha and the Nebraska Engineering Society.

## 100 Persons Register for Nov. Election

Over 100 persons registered for the coming election at the Voter Registration Booth in the Student Center this week.

The Booth was set up by the Election Commission Bureau with the cooperation of the University.

Mrs. Gusta Andersen, an employee of the Bureau, supervised the booth with the aid of four student volunteers. The volunteers were Edward Tenny, Gary Ray Meester, Stuart Lynn and Louis Gorr.

The booth was open the first three days of this week in the lower lobby of the Student Center. Last year, a similar booth was set up on campus and 250 students were registered in five days.

Mrs. Andersen contributed the low number of registrants this year and last to the large number of booths found in many public places throughout the city.

Mrs. Anderson said although more people were expected to register . . . the number was not disappointingly low.

Then conquer we must when our cause it is just, And this be our motto: "In God is our trust."—Star-Spangled Banner

## Student Staff Needed For Volunteer Booth

Students are needed to staff the campus chapter of the Volunteer Bureau booth every Wednesday, 9 a.m. to 1 p.m. in front of the bookstore.

The purpose of the booth is to sign up anyone who would like to volunteer his services to the Bureau. Anyone interested in staffing the booth should contact Dr. Aldrich Paul in room 315B in the Administration Building, Judy Jensen, Karen Luschen or Cynthia Evahn.

Last year over 40 Omaha University students worked in various capacities. "While the bulk of the workers are women who have raised their families, there are opportunities for young people," Dr. Paul said.

### Twice a Week

Twice a week students assisted handicapped children in swimming. Five helped at the school for the mentally retarded. Others supervised recreational activities for mental patients.

For education students, there is work in nursery schools for handicapped children and for children in settlement houses. They may tutor children or assist staffs for the mentally retarded.

Sports instructors for settlement houses are needed. Students may help in swimming classes for handicapped children.

Future nurses may be inter-

ested in helping in healthy baby clinics or in serving as recreational aides for children in hospitals. Psychology majors can help in schools for mentally retarded.

"The Bureau offers good field work for certain majors, especially sociology," Dr. Paul said. "There are benefits for all students who volunteer their time. These benefits are the satisfaction of serving humanity."

## ISA Ends Drive; Dance Tonight

The Independent Student's Association climaxed their week-long membership drive with a dance Friday evening. The affair for new and current members was held at the Elnwood Park pavilion.

The campaign was highly successful, netting 50 new members.

Typical freshmen chosen to represent ISA were Bob Rogers and Sue Stall.

Candidates for freshmen Student Council are Sue Stall, Gigi Tice, Johnny Tiedman, and Bob Rogers; sophomore president, John Anderson; sophomore vice-president, Tom Frasier; sophomore secretary, Lynn Dyba; junior secretary, Liz Vinski; and senior class president, Bob Haller.

## Biology Club Now Scouting For Members

If you are looking for a worthwhile club to join, check the Biology Club, it is open to anybody interested in Biology.

Activities of the club include picnics, films and speakers. These activities run through the school year. Two field trips are planned, either to the OU Farm or the fish hatcheries. Meetings are held on the third Thursday of each month.

At the first official meeting Edward Powers, a member of the club, will show slides he took while at a Biological Station in Minnesota this summer.

Club officers are: Edward Powers, president; and Judy Williams, vice president.

People interested in joining should contact Dr. Busch or Dr. Brooks, third floor Administration Building.

## Grain of Sand Deadline Is October 24

October 24 is the copy deadline for Omaha University's literary publication, "Grain of Sand."

Stephen Schicker, chairman of the board of editors, said short stories, poems or essays may be submitted to members of the board of editors or to Dr. Ralph Wardle, head of the English Dept.

The editors are Schicker, Vern Barnet, Judith Davis, Robert Hemenway and Michael Millea.

"There are a number of writers on campus that no one knows about," Schicker said. "This is an opportunity to see their work in print."

He said poems should be limited to 40 lines; short stories and essays to 2,000 words.

"Grain of Sand" is published once each semester with copies being sent to high schools in Nebraska and Iowa as an example of creative writing at OU, he said. This semester's issue is expected to be published in December.

The traditional cover of the publication, currently an "hour glass in a setting of sand," may be changed this semester, he said.

Ward Shoemaker, art major, is designing a new cover.

### Official Notice

Newman Club members will be the hosts this evening to children from St. James Orphanage at a football game. Club members are to meet at 6:30 p.m. in St. Margaret Mary's west parking lot.

### Swingline Fables for Fun

## Bowling Alleys Opened Monday

Alumni Representative Joe Baker, Student Council Secretary Sue Weidenhammer and Student Council President Jim Leslie cut the ribbon for the new annex to the Student Center.

Omaha University's four lane bowling alley was officially opened Monday with a ribbon cutting ceremony.

The ceremony, which took place in the OUampi Room just outside the doors of the new facility, was opened with comments by President Milo Bail who said that "the wonderful new addition was for the use of the entire University family."

Others who spoke were Jim Leslie, president of the student council, Joe Baker, representative of the alumni and one instrumental in raising some of the funds for the new alleys, Kirk Naylor, dean of administration and Don Pflasterer, dean of student personnel.

### Ribbon Cut

Following the introductory speeches, Jim Leslie and Sue Weidenhammer, secretary of the student council, cut the ribbon which officially opened the alleys.

The onlookers gathered in the new addition to watch Jim and Sue throw the first balls down the new alleys and then Dean Pflasterer took his turn at the foul line.

Fees for bowling are \$2.40 an hour and 15 cents for shoe rental.

P-CN

OU's price is \$2.40 per hour for each alley regardless of how many persons are bowling, he said.

There is no set limit, he said, but when more than five bowlers are on one alley at a time, "it is uncomfortable."

Four bowlers can get in two lines each in an hour, he said. The cost figures to be 60 cents for each student—30 cents a line.

### 40 Cents or More

The tab for most commercial establishments per line is 40 cents or more, he said.

It is cheaper if the students keep bowling, he said, "but it isn't if they sit around and smoke cigarettes and drink coffee between balls."

The four alleys can handle approximately 220 students per day, he said, figuring each bowls about an hour.

"There is no minimum on time," Haselton emphasized.

A student can bowl for as little as 10 minutes.

Shoe rental is 15 cents a pair. No time limit.

"The alleys haven't been as full as they could be (because) the problem has been a misunderstanding in the price setup," he concluded.

Dean Pflasterer shows his form.

## Cost to Bowl?

Apparently there has been some confusion about the price for using OU's new bowling alleys, Game Room Manager Bob Haselton said this week.

The big question: is it cheaper for students to bowl at OU than at commercial establishments?

"Yes," Haselton said.

The new annex to the Quampi Room . . . the four bowling alleys and an eating area with vending machines had its official opening last Monday.

## Frosh Take 615 Library Cards, Total Is 2,231

The Omaha U. freshmen seem to be the eager beavers in the library this year.

Miss Ellen Lord, the University librarian, said that the freshmen have checked out 656 library cards—more than any other class.

The seniors come in second, taking out 615 cards. The large amount of senior cards is due, according to Miss Lord, to the Bootstrappers.

The total number of library cards issued so far is 2,231. This is 1,000 more during the first year as during the same week last year.

Of the total number of cards out only 475 belong to night school students.

Miss Lord also announced that 17 new tables would soon be added to the library due particularly to the great numbers that use the library on Monday, Wednesday and Friday mornings.

## NAA Invites Two To Attend Meet

The Omaha Chapter of the National Association of Accountants has extended an invitation to two students each month to attend their dinner meetings.

Ron Swain and Jim Doescher attended the last meeting Sept. 18, at the Town House.

The meetings are held the third Tuesday each month. The Delta Sigma Pi professional fraternity selects one student and the faculty selects the other from the college of Business Administration.

### Official Notice

Young Republicans are to meet at 1 p.m. tomorrow at Young Republican Headquarters to canvass Ward Four (downtown). A party will follow at the Headquarters. On Sunday, Young Republicans are to meet at 3929 Frederick, Apartment 17 to canvass Ward Eight.

## Sweater Girl Told Oct. 6

Sweater Girl candidates Shirley Johnson, Nancy Norton, Milda Markus, Julenn Lefgren.

Theta Chi Fraternity will sponsor the first all-Greek dance tomorrow evening from 8:30 to midnight in the Student Union Ballroom.

Lee Kallstrom, master of ceremonies, will preside over intermission, featuring the traditional garter presentation to the new Theta Chi Sweater Girl.

Candidates for Sweater Girl are Julenn Lefgren, Alpha Xi Delta; Shirley Johnson, Chi Omega; Milda Markus, Sigma Kappa, and Nancy Norton, Zeta Tau Alpha.

Trudy Muntz will play for the dance, which requires one Greek card per couple for admittance.

## 'O' for Oldest? No, It's 'O' Club

The men seen around Omaha U's campus in red sweaters with O's on the front are members of the "O" Club, one of the oldest organizations on the campus.

To be eligible for membership, a man must have been awarded a letter in any of the intercollegiate sports participated in by Omaha U, and be a regularly enrolled student, carrying at least 12 credit hours.

The primary purpose of the "O" Club is to promote better athletics at the University of Omaha. Other purposes are to instill a true spirit of sportsmanship in the student body and community, to assist the Athletic Department, to encourage high school athletes to enroll at Omaha U and to promote better relations between athletic and academic organizations.

The officers of the club are elected in May and serve for two school semesters. All officers except the sergeant-at-arms must be a junior or senior.

The present officers are Mel Masek, president; Gerald Richardson, vice president; George Jeska, secretary; Dave Gibson, treasurer; Ken Allen social chairman and Jim Kettle, sergeant-at-arms.

The membership of the "O" Club now totals about 30.

## Coffee Hours Slated; Better Relationships?

The student Center Program Committee will sponsor a series of informal coffee hours during the month of October.

Aimed at bettering faculty-student relations, they are entitled "Know Your Professors." Each of these coffee hours will feature professors from various departments.

Special invitations to the faculty, freshmen and new students have been issued. The coffee hours will be held from 3 to 5 p.m. in the Student Center room 312 a & b. The dates and colleges discussed are: Oct. 8, education; Oct. 9, Liberal Arts; Oct. 22, Business Administration; Oct. 23, Applied Arts.

## Alpha Xi's to Hold Fall Initiation for 4

Fall initiation will be held by Alpha Xi Delta sorority Sunday, Oct. 7 at the home of Sandy Croft.

New initiates Connie Fleming, Gloria Kiggins and Norrine Vasholz and their parents will be honored at a reception later that evening.

Julie Bowen will also be initiated at that time for the University of Nebraska chapter of Alpha Xi.

## Cute Pan, Ugly Man Goal Set: \$4 Million

In next week's Gateway, Omaha University's Greek Organizations will announce their candidates for the annual "Cutest Pan and Ugliest Man" contest.

The purpose of this contest is to raise money for this year's United Community Service drive. Each penny donated counts as one vote for the organization that collects it. And there is no limit to the amount of votes that a single individual can cast.

Last year the goal of the UCS drive was two million dollars, and members of the University donated over eleven hundred dollars toward that goal.

This year the goal is \$4,100,000, twice as much as last year. This means that the Greeks are out to collect twice as much as last year for OU's share of the contest.

When approached this year for a contribution, give generously — remember: Good Guys Give, Good Guys Build.

## Bootstraps, Wives Drink Tea Friday

A coffee hour sponsored by the Pen and Sword Society will be held between 4 and 6 p.m. in the Student Center Ballroom on Friday, Oct. 5. All Bootstraps and their wives are invited. Dress for the occasion will be informal.

A general membership meeting of Pen and Sword is scheduled for 3:30 p.m., Oct. 15, in Room 438, A. Election of officers to fill vacancies in the executive council and a discussion of honorary memberships will highlight the meeting.

The membership drive for the fall semester has added 310 new members to the organization. Memberships are still available — see any officer or go to Pen and Sword office, Room 309 S.C. on Wednesday or Thursday, 11 a.m. to 1 p.m.

## Chi O's, Lambda Chi's Capture Sig Ep Sing

The Sig Ep Sing, held Sept. 28, kicked off the Greek social calendar. Results of the Sing, in the women's division were: Chi Omega, first; Alpha Xi Delta, second, and Zeta Tau Alpha, third.

Men's division winners were: Lambda Chi Alpha, first; Tau Kappa Epsilon, second, and Theta Chi, third.

The Sing was held at Tietz's barn, at 7:30 p.m.

## Beatniks, TV Players Invade Greek Parties

Beatniks and favorite television characters are to be the themes of two functions as most Greeks begin their exchange parties tonight.

Alpha Xi Delta and Lambda Chi Alpha will hold their function at Hill Haven barn. Everyone is to come as his favorite television character. A skit is to be presented by the Alpha Xi pledges.

Chi Omega and Tau Kappa Epsilon are planning a Beatnik party at Dewey Park Pavilion. Patti Matson is in charge of a skit that will be presented by the Chi O pledges.

Zeta Tau Alpha will have an exchange party with Pi Kappa Alpha tonight.

The Zeta's and TKE's had their first party last Friday at Benson Park. The party had a "West Side Story" theme.

## Rho Epsilon Meeting Hears Speaker Mon.

Rho Epsilon, real estate fraternity, will hold a meeting at 6 p.m. Monday, Oct. 8, in Alcove A & B, Cafeteria. A guest speaker has been invited, and all interested students are urged to attend.

Rho Epsilon officers for the coming year are: Clifford Smith, president; Michael Coughlin, vice-president; Larry Bogel, secretary; Ken Manger, treasurer, and Stan Kurtz, publicity director.

## 'Potpourri' Program Opens 1962 Schedule

The first of seven Readers' Theater productions will be presented on Oct. 11 at 7:30 p.m. in room 312 S.C.

The presentation will be "Potpourri," and is free to all students.

## Typical Freshman Election Set for Oct. 10 Bouganim Sisters See Changes; Query Student-Indian Interest

Candidates for Typical Freshman Boy of 1962 are from left to right, Robert Rogers, Independent Students Association; Jim Marsicek, Lambda Chi Alpha; Harry Riedemann, Theta Chi; Rich Tompsett, Pi Kappa Alpha; Howie Fouts, Tau Kappa Epsilon; and Randy Nielsen, Sigma Phi Epsilon. Not pictured, Gary Parilman.

One of the above girls will be named Typical Freshman Girl of 1962 on October 10. The girls from left to right are: Nancy Metz, Sigma Kappa; Karen Sedoris, Chi Omega; Peggy DeLong, Zeta Tau Alpha; Kathy Dayton, Alpha Xi Delta and Susan Stall, Independent Students Association.

The Typical Freshman elections and mixer have been scheduled for Wednesday, Oct. 10.

Candidates for the election of Typical Freshman Girl are Peggy DeLong, Zeta Tau Alpha; Kathy Dayton, Alpha Xi Delta; Susan Stall, ISA, and Karen Sedoris, Chi Omega.

Candidates for Typical Freshman Boy are Randy Nielsen, Sigma Phi Epsilon; Howie Fouts, Tau Kappa Epsilon; Rich Tompsett, Pi Kappa Alpha; Harry Riedemann, Theta Chi; Jim Marsicek, Lambda Chi Alpha; Robert Rogers, I.S.A., and Gary Parilman.

This is a FRESHMAN-ONLY ELECTION. Each candidate is responsible for the following

regulations:

1. There shall be no off-campus campaigning. This is to eliminate letters, telephone calls, post cards, literature, parties, etc.

2. Campaign is by "word of mouth" only.

3. On-campus campaigning shall not be conducted on the entire second floor of the Student Center or in the Library. This is to eliminate all gimmicks, signs, posters, handbills, loud speakers, card displays, car tags, etc. in the parking lots and on campus grounds.

4. Organized campaigning can be carried on any place except within the polling limits of each building, and organized campaigning shall exist only on elec-

tion day. There shall be no organized campaigning in the outer lobby of the Student Center or any other entrance or exit to any building on campus.

5. Each candidate shall be limited to two posters, both to be submitted to the Dean of Student Personnel office with a 3x5 card giving the following information about the candidate: name, class, age, major field and activities.

6. Voting shall take place on the second floor of the Student Center in the Student Organizations Room. Votes will be cast from 9 a.m. to 3 p.m. Polling limits shall be the entire second floor of the Student Center and entrances and exits of the building.

By Jack Turner

Est ce que vous comprenez l'instituter?

This question in French is simple and commonplace for three French-speaking girls at Omaha University. The English translation presents more of a problem to them, however.

Mademoiselles Florence, Rachel, and Sylvie Bouganim arrived in the United States May 18, 1962, and in Omaha the following week. They joined their two sisters, Georgia and Giselle, who live in Omaha.

The Bouganims are here on four year student visas and are not exchange students as many people think. They lived in French Morocco, North Africa, and are products of the French educational system in Casablanca.

Several students have asked the Bouganims to help them with their French but they made it clear that they have their own hands full with studies. Every lesson in their daily assignments must be done with one hand on the text and the other hand finding its way through a French-English dictionary.

### National Pride

When asked about the one most outstanding thing they have noticed about the States, Rachel said, "The national pride and discipline and respect the inhabitants have for the laws is a quality not found in other parts of the world."

"For example," said Rachel, "everyone except the Europeans in Morocco would get hungry at the same time and would crowd into this restaurant (Cafeteria) and demand that each be first. Many would have to go without

eating, for obvious reasons."

When asked about their first impression of the United States they agreed, "I can assure you the day we landed in New York takes its place among the unforgettable days of our lives," said Rachel. "On our arrival we had the impression of being plunged all of a sudden into an extraordinary, unknown planet. New York is so gigantic, so bustling, so exciting; New York cannot be told about but one has just to see in order to believe," she said.

### A 20-cent Taxi?

What about the economy here in comparison to Morocco?

"When we were growing up and in high school we had heard much about the wealth of the States and average incomes of the inhabitants. We find after living here that it is necessary because every little thing costs so much in comparison to Morocco.

For example, in Casablanca it costs five cents to go anywhere on a bus and 20 cents for a taxi. Americans apparently must work more, pay more taxes, and have less to spend (buying power) than what we thought."

Florence asked this reporter a perfectly logical question dealing with the apparent student interest in the American Indian. She wished to know about the subject and was slightly disappointed to learn about book covers.

Every day the Bouganims have surprises—some good and some that are not so pleasant. In spite of the vast adjustments, the Bouganim sisters make a happy trio as anyone who sees them together on campus will attest.

Sylvie, Florence, Rachel . . . many changes in America.

## Old Band Uniforms Out After 15 Yrs.

The band will present a "Salute to the City of Omaha" for the half-time activities at the Parent's Day football game.

The Indians marching group and baton twirlers will be featured as their formations portray the famous highlights of Omaha.

"This is the last show for the old band uniforms; we have had them for about fifteen years," said Mr. J. A. Malik, Music Director. The new uniforms are to be ready for Band Day, October 13.

The drum major this year is Bob Thompson; the majorettes are Kathleen and Marlene McQuire.

Other band members are: Bogacz, Tom; Booker, Annette; Branigan, Mary; Busch, David; Cantwell, Richard; Doxon, Jana; Duncan, Robert; Engelhart, Marie; Floth, Jon; Geist, Dean; George, Gene Paul; Graves, Gary; Harvey, (Earl) Thomas; Hayes, John; Heflinger, James; Helligso, Ruth; Howard, Mike; Illsley, Jack; Jorgensen, John; Kerr, John; Kral, Richard; La-

throp, Barb; Mellor, Raymond; Menze, Mary Kay; Moore, Linda; Munson, Charlene; Murphy, Larry; Nevins, Lynne; Paulson, Billie; Petrie, Elizabeth; Rankin, Ben; Schell, Norman; Sheppard, Charles; Sherman, Gary; Somer, Jean; Taylor, Spencer; Thompson, Robert; Travis, Albert; Wood, Vernon; Wright, Ervin.

## Count Basie Plays For Homecoming

Elections for Homecoming have been set for Wednesday, Oct. 17, from 9 a.m. to 3 p.m.

Petitions may be checked out Monday, Oct. 8 and must be returned by 4:45 p.m. Thursday.

Candidates for Homecoming Queen are: Sue Hornish, Alpha Xi Delta; Dolores Brewer, Chi Omega; Anita Lee, Independent Student Association; Carolyn Curry, Sigma Kappa and Midge Butters, Zeta Tau Alpha.

One activity card is required to vote in this all-school election.

## SEA Sponsors Tea; Money Due Oct. 10

The Student Education Association will hold its first meeting this year Wednesday, Oct. 10.

The meeting will be a tea in room 312a S.C. at 3:30 p.m.

Members may pay their annual dues of \$3.00 at that time or any time in October in room 200 Ad.

The tea will feature a guest speaker and comments by faculty members of the College of Education.

SEA is open to any student majoring in education or considering teaching as his profession. SEA is the student branch of the National Education Association and is a requirement for membership in Kappa Delta Pi, education honorary.

SEA officers for the coming year include: Karen Stacke, president; Judy Rinschen, treasurer; Linda Anderson, historian, and Mary Beth Moulton, publicity.

## Book Shortage Ends; Store 'Out of Woods'

"We are out of the woods as far as the text book shortage is concerned," Ben Koenig, Bookstore manager, announced today.

The textbook supply at the Bookstore has been replenished by the delivery of several shipments in the past week.

Mr. Koenig said that deliveries Sept. 29, Sept. 30 and Oct. 1 should take care of the book shortage in all classes.

## Repairs on FH Near Completion

The Building and Grounds department has been repairing the roof and repointing the brick on the Fieldhouse this week.

Cracked mortar joints of the fieldhouse and the stadium walls are being repointed and some replaced. The cement joints between the bricks cracked as a result of expansion and contraction due to the weather, said Clarence Lefler, head of Buildings and Grounds.

The leaking roof is insured by a bond against faulty materials and workmanship.

## Music-Minded Girls Invited to Rush Tea

Delta Omicron, international music sorority, will hold its annual rush tea on Sunday, Oct. 7.

The tea, which begins at 3 p.m., will be held at the home of Dr. James B. Peterson, 307 So. 51st St.

Any girl who is a music major or minor is eligible for membership.

Active members of Delta Omicron will be present to give interested girls details concerning financial obligations, musical and social activities and scholastic requirements.

## Rain Hurts Crowd, Expect Overflow

A near capacity crowd was on hand last Saturday to watch Omaha's gridders grind their way to an impressive third straight win over an undermanned Bradley eleven.

Only the threat of rain kept the attendance from being an overflow partisan effort. About 600 more could have been accommodated comfortably.

The same predictions for an overflow crowd hold true for tomorrow's home meeting with Northern Illinois. This is particularly true because of Parent's Day, the annual outing for the parents of all students to attend the football game. In conjunction, there will be an informal gathering of parents in the Student Center cafeteria immediately following the game. Refreshments will be served.

The University Athletic Section will pay particular attention to the parents of the football team members. Dads will sit on a special bench with the numbers of their offspring displayed on their back. Mothers will take a more restrained view of the activity from a special section in the reserved portion of the main grandstand.

Special emphasis was placed by Dean of Students Pfisterer, who is in charge of the Parents' Day arrangements, on the fact that the gathering in the cafeteria is an informal gathering and that all parents are invited to attend.

Saturday's game with Northern Illinois is the second consecutive home showing for the Indians. They meet Ft. Hayes State on the following Saturday at home and Emporia State the week after before traveling to St. Benedict's on October 27. October 13 is Band Day, and the clash with Emporia on October 20, is homecoming. Extensive plans are being formulated now for both these campus highlights.

## Locker Room Addition To Relieve Congestion

Congestion will be relieved in the men's Physical Education department with the addition of another room adjacent to the present main equipment room.

This room will enable the equipment manager to lock the main room and issue towels and any other gear to members of all P.E. classes from the new room.

Also new is the system by which all team members are issued cards which give a record of what has been issued to each man in gear and equipment.

The room, which was started in August, is almost completed.

# Indians and Northern Illinois Shoot for Four in a Row, Bradley Victim Number Three in Wild Offensive Display

For the second week in a row a wide open football game is expected at University Stadium.

Omaha University and Northern Illinois, both sporting identical 3-0 marks, will clash tomorrow at 2:00 p.m.

Coach Al Caniglia, anticipating a wide open offensive battle, pointed out that they (Northern Illinois) have thrown the ball 96 times and run 96 times in three games. So, he said, we can expect a pass half of the time.

OU scout Russ Gorman noted the Huskies strong passing game, saying, "If you think Bradley threw the ball, just wait until you see Northern Illinois."

Northern's top passer, quarterback George Bork, hit 22 of 29 tosses against Winona (Minn.) State for 178 yards. He is ranked as one of the top small college passers in the nation.

In remaining undefeated so far this season, Northern Illinois has dumped Whitewater (Wisc.) State, (17-0); Winona State, (27-0); and Northeast Missouri State, (37-8).

### Good Attitude

Coach Caniglia said the team's attitude is good and they're really pointing for this game. He added they're playing each game one at a time and aren't taking anyone lightly.

As for injuries, there are the normal amount of bumps and bruises but nothing serious. Everyone will be suited up and ready to go.

Halfback Roger Sayers is a slight exception. The Rocket is still nursing bruised ribs which kept him out of last week's encounter with Bradley. Caniglia said "We will use him if we have to, but we would rather have him completely healed for the rest of the season."

The Illinois club, coached by Howard Fletcher, is used to winning ball games. Last year their record was seven wins and only two losses.

### Five Out of Ten

Tomorrow's game will be a tie breaker regardless of the winner. In ten meetings of the two teams, each has won five. The schools played ten years in a row, from 1949 to 1958. Northern Illinois won the first four games and the last one, with OU winning five in a row from 1953-57.

If Sayers isn't healthy enough for the game, the Indians probably won't feel the loss too much. Lee Milner, a transfer from Wyoming, filled in for Roger last week and proved to be quite a find. Milner picked up 56-yards on ten carries, scored

Fullback Wayne Backes ran this pass interception back 67 yards in last week's game against Bradley. The touchdown was one of two Backes scored last week. Leading interference on the play is center Neil Galloway.

two touchdowns, and was more than adequate on defense.

Fullback Wayne Backes also played one of the finest games of his career. Backes is a relatively unheralded player who is always good for a couple of yards when they are needed, and he's an exceptional blocker. Against Bradley, Wayne scored two touchdowns, on a 67-yard interception return and a two yard plunge.

### Little Lou Big Leader

The big gun in the attack, though, was little Louie Miloni. The midget, (5-5, 145) halfback is off to his fastest start in four seasons. He is averaging 11.5 yards per carry in the first three games. Against Bradley, Louie had one of the highest one-game yardage totals in OU history. He picked up 196 yards on 12 carries.

### Bradley Game Relash

Omaha University's Indians, relying mostly on a devastating ground attack, rolled to their third straight win Saturday as they clobbered Bradley, 47-26.

Lou Miloni paced the Indians as he rolled up 196 yards in 12 carries, more than the entire Bradley team could muster. The little guy scored only once but had four runs of 30 yards or more.

Bradley struck for an early

6-0 lead but for the third straight week, the Indians came roaring back to lead at the half, 28-12. Two scores by Lee Milner and a 61-yard pass interception by Wayne Backes highlighted the Indian attack.

The second half started right where the first left off. The Omahans took advantage of two Bradley miscues to run the score to 40-12 with only a few minutes gone in the third quarter. A 15 yard pass from Carl Meyers to his favorite target, Paul Blazeovich and a beautiful bootleg by Meyers with a fine block by George Jesko succeeded in putting the Indians out of reach.

Coach Al Caniglia put a halt to the rout by starting a parade of subs and the Braves responded by putting on the most prolific display of passing seen in years on the campus gridiron.

Led by quarterback Tony Jannota and his ace receiver George Marcordes, the Peorians rolled to a staggering 346 yards via the air and scored three times.

The game had turned into a near free-for-all late in the fourth quarter when Coach Al Caniglia inserted Miloni into the lineup again and the mighty

mite responded with a 36-yard touchdown gallop to show the Braves just who was the boss.

Carl Meyers refused to unlimber his arm against the air minded Braves and stuck mainly with his speedy halfbacks. Rocket Roger Sayers did not enter the game due to bruised ribs suffered earlier in the week. However, Caniglia said he would have been used if needed.

Miloni paced the Indians with 196 yards rushing while Lee Milner, filling in with a great job for Sayers, had 65 yards and two TDs. Meyers completed 6 out of 13 passes for 85 yards, his lowest total to date. Other Indian scoring came on three yard plunges by Milner and Backes. Bradley out-yarded the Indians, 449-359 but had only 103 on the ground.

### Score by Quarters

Head Coach Al Caniglia and assistant Don Watchorn plot strategy on the sidelines during the Bradley game. Their moves were apparently successful as OU outscored the Braves, 47-26. Waiting for his turn to get into the game is Tony Gervasio, a freshman fullback from Morristown, N. J.

Yesterday, the OU footballers were rated the No. 6 team in the nation by the National Association of Intercollegiate Athletics.

## WRA, M&M's Night Activity

Forty women turned out for the Women's Recreation Association Sports Nite last Tuesday evening. The Sports Nite took the place of the Membership Picnic held in previous years intended to interest women in WRA competition.

Activities offered at the Sports Nite, included trampoline, badminton, golf, soccer, basketball, and volleyball.

Women interested in entering tennis doubles, golf, or bowling competition should sign up at the women's PE hut today.

Paddle boating, music from an old player piano, swimming, hiking, and various skits offered especially for underclassmen will be available at the Majors & Minors Overnight at Nixon's Island tonight.

The M & M's, the women's physical education majors and minors club, plan to acquaint new members with the activities and opportunities offered through the club this year at the Overnight.

Anyone interested in majoring or minoring in women's physical education is urged to attend the Overnight. Details may be secured at the women's PE hut.

## Pi Kaps, Sig Eps Draw Big Crowd For Intramurals

Very unusual to Intramural sports is a large crowd and this was the case when Sig Eps met the Pi Kaps on the Women's PE Field Monday. Approximately 150 students braved cold winds and drizzle to watch the two teams fight to a 0-0 draw in the regular game which is composed of 50 plays.

Intramural rules require each team to run a set of four plays with the team compiling the most yardage winning the game 1-0. Sig Eps on the offensive first ran up 41 feet, Pi Kaps first play, an end sweep was stopped by a Sig Ep defender at the line who then threw the ball carrier to the ground causing his team a 15-yard penalty which gave the Pi Kaps 45 feet. With three plays remaining and an edge of about four feet the Pi Kaps played it safe and ended the game with line plunges.

In games last week:

Thunderbolts 6, Bootstrappers 0  
TKE 19 ..... Theta Chi 0  
Sig Eps 24 ..... Untouchables 0

With the entrance of two new teams into the Intramural Flag Football league Mr. Bert Kurth, Director of Men's Intramurals has prepared a new schedule. Team captains are urged to pick up the new schedule which starts on Monday, October 8.

### INTRAMURAL NOTICES

Archery — October 12, 3:15 at Football Field.

Four-Mile Relay — October 26, 4:15 at University Track.

## Meyers Leads OU's Indians on the Gridiron, Has Everything a Good Quarterback Needs

By Ken McEwen

A good passing arm, good running, good hands and good football sense are all part of any successful quarterback. Omaha University's Carl Meyers has them all.

Meyers, a transfer from Wyoming, has one of the best passing arms in the conference. Not putting his arm to full use last

talents as a runner, he kept on a 15 yard touchdown play.

### Prep Grad

The Creighton Prep grad's ability with calling plays and executing smooth plays in the backfield can be witnessed only on the playing field where he calls his own plays and moves in a smooth manner.

He was a graduate of Prep in 1959 where he was a three sport man. He played baseball and basketball in addition to football. His strength in football in high school was illustrated by the fact that he was elected to the Nebraska Shrine Bowl game in which he received

the Most Valuable Player award.

From Prep he went to Wyoming University for three semesters. Carl earned a freshman numeral and a varsity letter. He transferred to OU following the football season.

### Married and a Father

The junior physical education major is married and lives at 3639 W. He and his wife, the former Miss Sherri Payne, are the parents of a six month-old boy, born March 11.

Married August 26 of 1961, the native Omahan had his twenty first birthday September 14.

Carl also played baseball last spring and earned a letter.

Quarterback Meyers

OU's co-captains, halfback Louie Milioni and end, Paul Blazeovich will lead the Indians against Northern Illinois tomorrow at 2 p.m.

"Tareyton's Dual Filter in duas partes divisa est!"

says Romulus (Alley-Oop) Antonius, agile acrobatic ace of the amphitheater, while enjoying a Tareyton. "Tempus sure does fly when you smoke Tareyton," says Alley-Oop. "Marcus my words, one Tareyton's worth all the Julius in Rome. Because Tareyton brings you de gustibus you never thought you'd get from any filter cigarette."

Dual Filter makes the difference
